

4. **Team Building Activities:** We incorporate team building activities into our camp program to promote positive behaviour and foster a sense of community among campers.
5. **Conflict Resolution:** We provide campers with tools and strategies for conflict resolution, including communication skills and problem-solving techniques.

By implementing these strategies, we create a positive and supportive environment that encourages campers to display positive behaviour and fosters a sense of community and respect among all campers and staff. We believe that promoting positive behaviour is essential to creating a safe, enjoyable, and enriching camp experience for everyone.

This Promoting Positive Behaviour Policy was adopted by the Directors of FCP Activities on 9th June 2022 and the statement was most recently reviewed on 9th June 2023
